

# WordSwag Guidelines

Let's create a collection of quotes and sayings!

I would **LOVE** for you to create quotes and sayings to share on social media geared around courage and busting through our fears that hold us back, so we can play bigger in the world.

**There are just a few guidelines:**

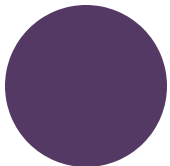

1. Please use the provided backgrounds with logo
2. Please use the Courage Collective brand colors only.
3. Please use Raleway font, if possible.
4. You MAY use your name and CC location on the image.
5. Please share in the CC Leader FB group!

It will help inspire others, and if it doesn't include your name/location, it can even be used by other leaders.

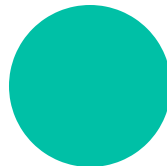

**Please post your creations in the CC Leaders FB group** and let's work together and **build a great collection we can all take advantage of!**
